Bellevue, WA | (206) 475-8031 | samchen@mit.edu | www.linkedin.com/in/samuelj-chen

EDUCATION

Massachusetts Institute of Technology (MIT)

BS in *Computer Science - Artificial Intelligence; Minor in Finance*

Cambridge, MA

Exp. May 2027

- GPA: 4.95/5.0 | SAT: 1600
- *Coursework*: Representation, Inference, and Reasoning in AI, Natural Language Processing, Computer Vision, Machine Learning, Algorithms, Dynamic System Modeling and Control Design, Discrete Math, Probability & Statistics, Linear Algebra, Differential Equations, Probability and Random Variables, Fundamentals of Programming
- *Activities*: Varsity Basketball, Sloan Business Club, Brass Rat Investments, StartLabs, Splash

EXPERIENCE

MIT Sloan School of Management

Researcher

Cambridge, MA

May. 2024 – Sep. 2024

- Conducted cross-sport empirical analysis across 15+ leagues and competitions, engineering quantitative measures of competitive balance and durable dominance and using regression analysis to study relationships between parity, performance dispersion, and sustained team success
- Built probabilistic Monte Carlo season simulators in Python that model team skill distributions, derive matchup win probabilities, and fit simulation parameters to historical NBA, NFL, NHL, MLB, and European soccer outcomes

Nexus AI (Courtex)

Co-Founder

Cambridge, MA

Apr. 2025 – Present

- Built end-to-end machine learning pipelines on multi-season NCAA basketball datasets to forecast player performance, transfer fit, and outcomes, including data ingestion, feature engineering, model training, backtesting, and error analysis
- Built a retrieval-augmented LLM scouting platform that grounds natural-language analysis in structured player and team data, enabling coaches to query players, evaluate roster needs, and generate automated scouting insights
- Trained and evaluated predictive models for player performance and transfer fit using temporally separated train/test sets; performed feature engineering, hyperparameter tuning, and error analysis to study out-of-sample generalization
- Established partnerships with 20+ Division 1 basketball programs, including national runner-up Houston University

Goldman Sachs

FIG Investment Banking Intern

New York, NY

Jun. 2026 – Aug. 2026

- Supported 8 M&A and coverage teams across Financial Institutions, performing company and industry research, valuation and transaction analysis, and preparation of materials for senior bankers and client discussions
- Contributed to the buy-side advisory for KKR, Dragoneer, and Amwins on the ~\$5.5B acquisition of Steadfast Group, analyzing transaction dynamics, valuation, strategic rationale, and insurance brokerage industry considerations

Cercano Management (Vulcan Capital)

Public Equities Intern

Bellevue, WA

Jun. 2024 – Aug. 2024

- Engineered 7 financial tools in Python to automate trading research and backtesting, including portfolio tracking against benchmarks, industry margins/growth, momentum/moving averages, volatility in levered indices, and rolling correlations
- Screened over 3,000 companies to find top-quartile performers in FCF margin, EPS growth, ROIC, YTD performance, and more to complement fundamental approach for portfolio manager's investment decisions for \$10+ billion-dollar fund

Barings

Capital Solutions (Private Equity and Special Situations) Intern

Charlotte, NC

Jun. 2025 – Aug. 2025

- Screened and led investment memo drafting for 4 potential debt and equity investments using cash flow models and returns analysis in combination with market research, investor presentations and management calls

LEADERSHIP & ACTIVITIES

MIT Varsity Basketball

Recruited Collegiate Athlete (Point Guard)

Cambridge, MA

Sept. 2023 – May 2026

- Appeared in all 24 games as a freshman and played 6th most minutes on team, averaging 15.4 minutes per game
- Scored 10 points, grabbed 4 rebounds, and distributed 4 assists against the #4 D3 team in the country, Keene State
- 6th in points and 8th in assists in Washington State High School Basketball, 4-year varsity starter in largest division (4A)

SKILLS & INTERESTS

Technical: Python, HTML, CSS, JavaScript, Data Analysis, Modeling

Interests: Basketball, Personal Investing, Podcasts, Biking, Skiing, Hiking, Working out, Fantasy Football
